READY FOR THE RACE.

Suburban Crowds Will Be Well Cared for To-Day.

Report That Lamplighter Is Not In the Best of Shape.

All Wires to the Sheepshead Track Cut This Morning.

SHEEPSHEAD BAY, June 20 .- Within a few hours from this writing a group struggling thoroughbreds will flash by the finish line on the Sheepshead Bay track and the Suburban of 1893 will be over. The winner may be any one of the eleven horses contesting.

to the post in the Suburban, and it is safe to say that no owner will voluntarily give up this sum unless he think

ne has a chance to win.

The race will certainly be one of the best contested events of the year, and the winner will have to be ridden out to capture the \$20,000 purse. The track never looked prettier than

it did this morning, with its fresh, green lawns and meadowy infield. The track is in superb condition, and already betrun faster than any Suburban on record. Great preparations are being made to receive a large crowd. Hundreds of slicing bread and meat for sandwiches.

These were stacked up in great heaps, and damp cloths were placed over then to keep them fresh until the ravenous crowd arrives from the city. Others were rolling kegs of beer about and stowing them away in convenient sight of which would throw the average small boy into convulsions, stood about on the counters. Hundreds of cases of

wine were deposited in tubs of ice, ready to be opened at a moment's notice to In the stand were upward of a hun-

In the stand were upward of a hundred women, carefully dusting and wiping the chairs, so that the dainty tollets of the fair sex might not be stained.

In the ring, boxes were being hauled into position and fitted with the varied paraphernalia used by the bookles. Around on the lawn and in the paddock stood groups of trainers and stable boys all discussing the chances of their respective favorites.

Lamplighter was the general favorite, They could not conceive how he could be beaten, especially if he was in anything like fit condition. There were rumors, however, that the son of Spendthrift did not work as well as was expected on Saturday and Sunday.

It seems that the great four-year-old has developed a very bad temper, and he either could not or would not do his work in anything like decent shape.

He suiked very plainly, and was beaten by Kildeer. The latter was beaten both He sulked very plainly, and was beaten by Kildeer. The latter was beaten both by Count and Gloaming in a race yesterday, so it will seem from this that Lamphishter's chances are not rosy if the reports about him are true. It is more than probable, however, that the accounts have been exaggerated, and that the great colt was simply loaning, an act which he can do to perfection.

Lamplighter will show very different form in his races.

Banquet was generally believed to be the horse, that would beat Lamplighter if any one did. His races this Spring have been first-class, and he has always hunted Lamplighter very close.

Yesterday Garrison asked permission to rise Charada in the race.

Yesterday Garrison asked Yesterday Garrison asked to ride Charade in the race.
"No, sir," said Matt Byrnes promptly "No, sir," said Matt Byrnes promptly and firmly, and firmly. If The Pepper had no chance Byrnes I the Pepper had no chance Byrnes I tould no doubt permit Garrison to ride lones a horse. It must be inferred from his that The Pepper is largely in the race and that Byrnes fears that Chadale, with Garrison in the saddle, would have a chance of beating The Pepper. It cannot be denied that the Marcus Daly colt has a good chance.

None of the others are very much thought of. Some fancy Lowlander, but he was never anything but a selling-plater, and he will hardly do against stake horses.

Stake horses.

No one knows whether the race will be the third or fourth on the card until the programme arrives.

Matters were a triffe more exciting on the outside of the track. It was whispered about that Johany McKane had paid a visit to the two hotel-keepers opposite the track and had ordered them to remove all wires from their premises. one hotel the Guttenburg people a private telephone, which com-

Just before the meeting one of the general passenger agents told an "Evening World" reporter that there was every likelihood that the Committee would recommend the further reduction of the present rates to a one-way rate basis. Many passenger agents were in favor of the reduction, but such a recommendation has to be indorsed by the Executive Committee of the Trunk Line Association.

The present one-way rate to Chicago by the Pennsylvania and New York Central is 220, while there is a difference of from \$1\$ to \$3\$ by the other lines. The only reduction on account of the Fair is on thirty-five-hou trains, and is 29 per cent.

Persico, who is about double the age of Forrest, was getting the better of the fight when Anton, the son, came to his father's rescue with a hatchet. With a well-simed blow the son nearly severed Forrest's nose, and with successive ones he cut ugly gashes in-his face and head. Policeman McGinnis then took Anton and his father to the Sixty-seventh street station and sent

as a present to the waters week.

According to "The Evening World's" informant, this purse was handed over to the head watter, who, in turn, gave it to his assistant to be distributed equally among the men. The result was that the watters only received \$2 each, several not getting anything at all, and they have never been able to find out where the rest of the money went to.

This, of course, created great dissatisfaction, and the complaint says.

"The only thing that prevented the waiters going on strike at once in a body was the arrival of the Seventh Regiment from New York.

"When the Seventh's gallant boys were at Peekskill last they left a purse of \$600 for the waiters, besides a separate purse for the cooks. At that time the waiters only received \$2 apiece, and there was a great kick, but nothing was ever done about it. We expected better treatment this time."

As the waiters only receive \$25 a month wages, which is less than a dollar a day, they think they have been very unfairly dealt with.

They say that they are obliged to be up at 4.50 in the morning, and that each waiter must wait on sixty men a day, twenty at each men!

degrees, while three hours later it had jumped up to 89 degrees. No wonder Mr. Dunn declared that the prospects were that to-day would be a record-smasher for heat.

The warm wave which overspreads the entire country east of Kansas, is accompanied by very little range in the temperature, which seems to hang fire between 74 and 84 degrees.

People arc perspiring this morning just as freely in Philadelphia as in Jupiter and Key West, Fla., and there is just as much heat away up in Moorhead, Minn., as down in Vicksburg, Miss., while a similar condition of affairs exists in New Orleans and Marquette, Mich.

In these places at 8 o'clock the thermometer registered 84 degrees, 76 degrees and 89 degrees, respectively, with very bright prospects for increasing heat.

Notwithstanding the fact that New Yorkers are confronted by this condition of heat, there is some consolation that the humidity is not so plentifal in the atmosphere, and this may cause some people to doubt that we have record-breaking weather for heat.

At 3 o'clock there was offly 58 percent. of humidity in the atmosphere, which is unusually low, but the fact remained that we are experiencing hot weather pure and simple.

This warm wave, according to Mr. Dunn, is going to stay awhile, for a day or two at least. It is going to continue its heating influences in the vast region it now covers, and although there are some slight showers to the south of us, Mr. Dunn declares that we are to have generally fair weather.

There may, however, be some change to-morrow a light, but the unpleasant assurance is made that to-morrow the weather will be just as warm as to-day.
